

Temat

Quolingo for
everything else

Problem

Learning should be flexible, personalized, and engaging

- Traditional learning methods are often boring and ineffective
- Existing platforms lack personalization
- Difficulty in maintaining motivation for self-study

Solution

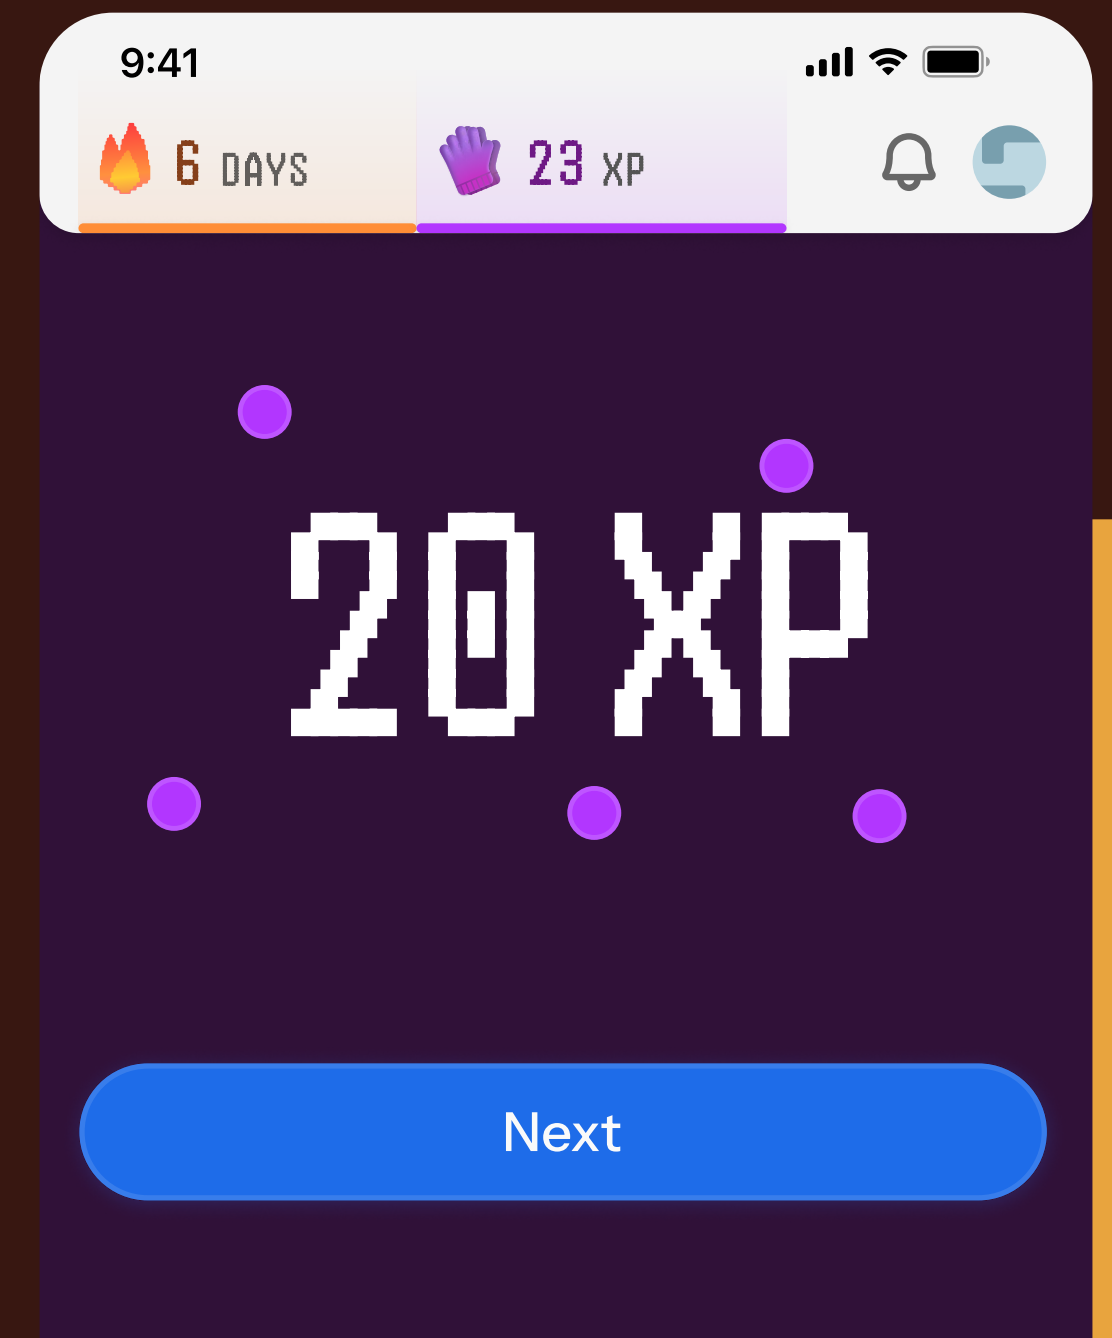

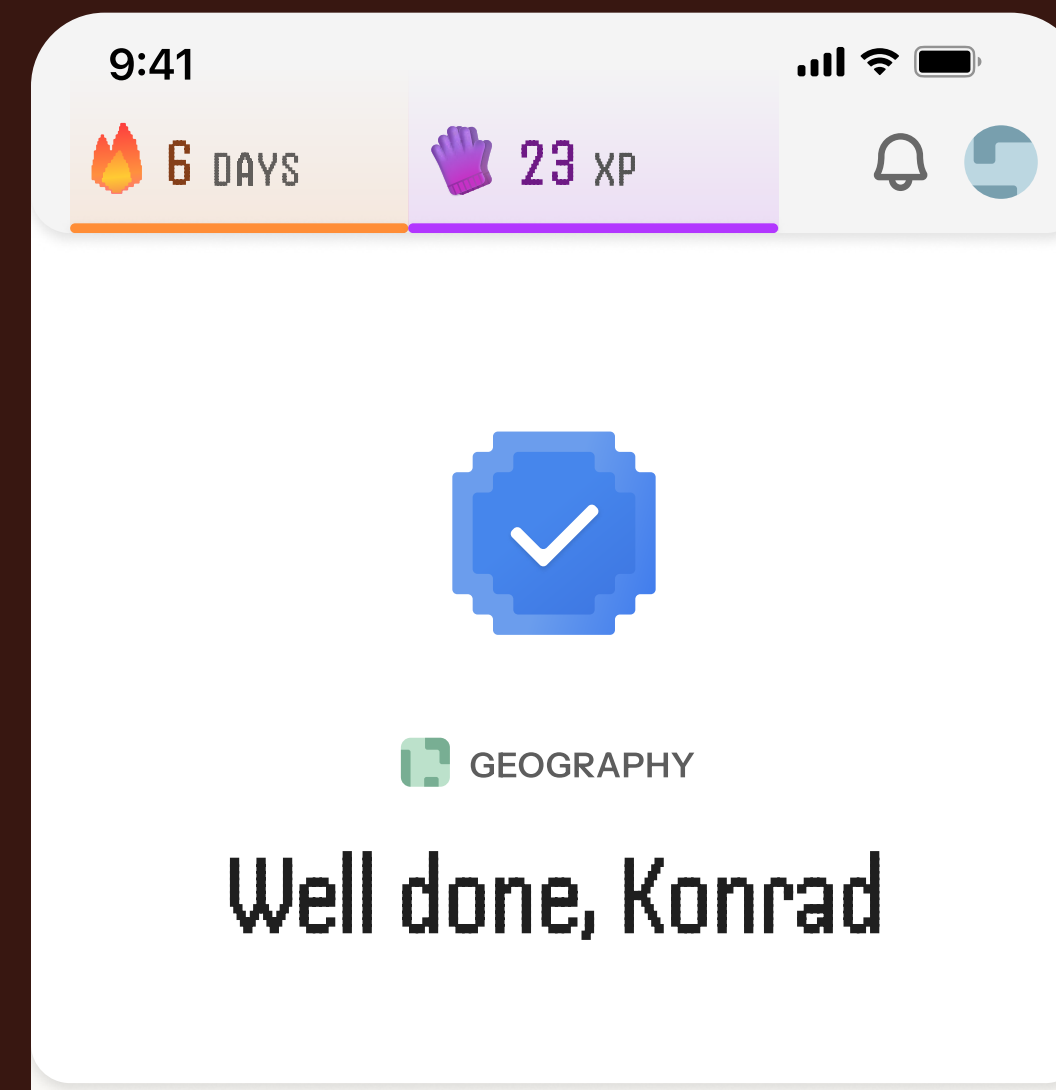

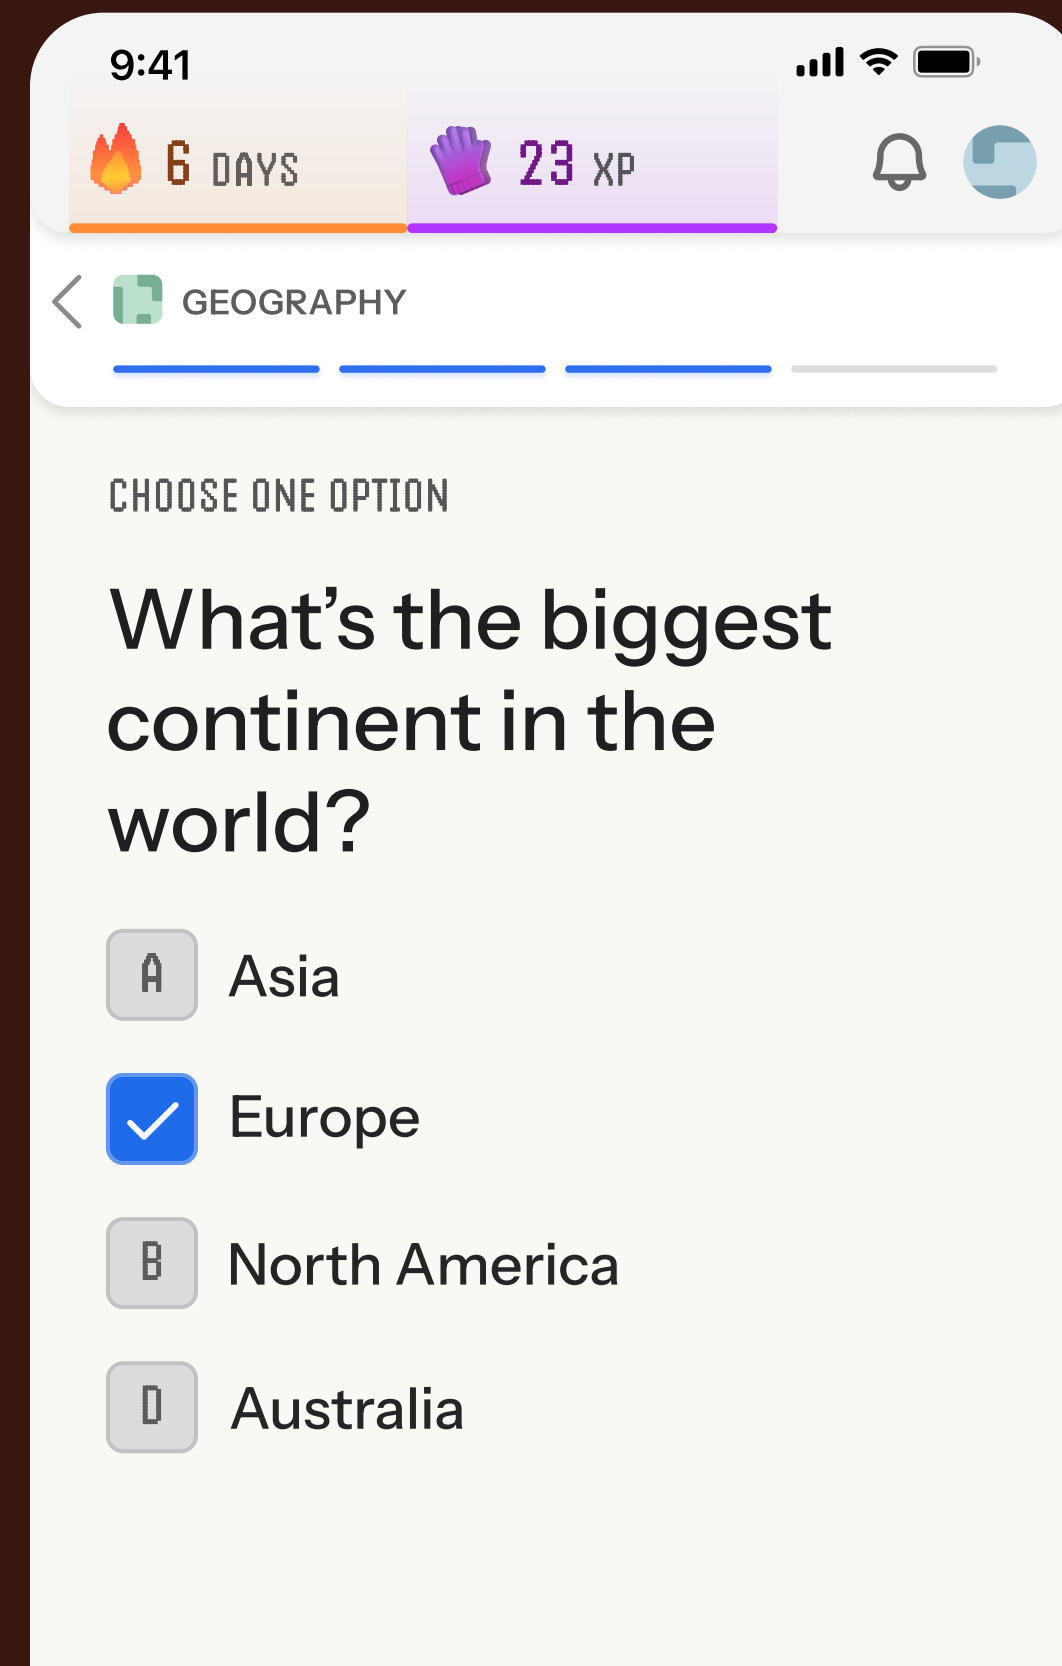

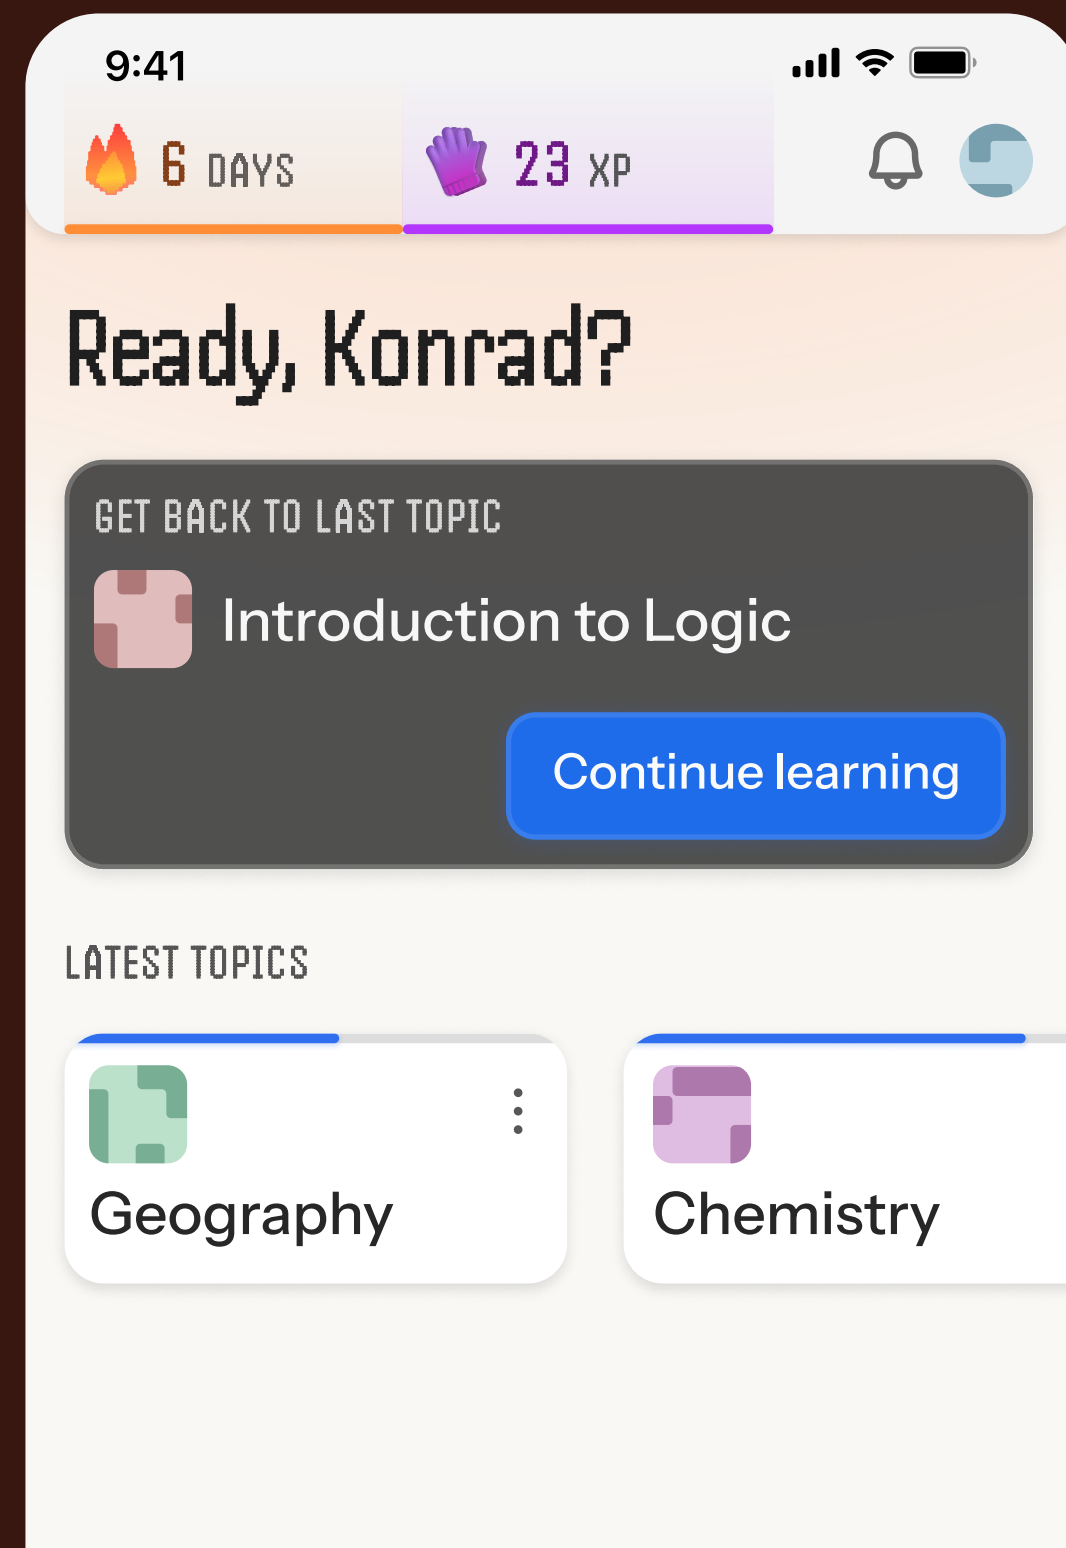

An AI-powered learning platform that turns any content into a gamified learning experience

- Upload any learning material (PDFs, photos, etc.)
- AI generates personalized quizzes and exercises
- Gamified experience keeps users engaged and motivated

Status

Building MVP

Go-To-Market Strategy

- Organic Short-form content & Influencer Marketing
- Leverage Discord platform by building Activity allowing users to compete with each other on different topics
- Implement referral programs to encourage user-driven growth
- Initially target English-speaking markets, then expand into more markets
